TRIP DOSSIER

Zambia: Luangwa National Park (SLL)

(4 DAYS LAND ONLY) Lodge Safari

Updated 19/05/2012

South Luangwa National Park in eastern Zambia, the southernmost of three national parks in the valley of the Luangwa River, is a world-renowned wildlife haven. It supports large populations of Thornicroft's Giraffe, and herds of elephant and buffalo often several hundred strong, while the Luangwa River supports abundant crocodiles and hippopotamuses. It is one of the best-known national parks in Africa for walking safaris. Founded as a game reserve in 1938, it became a national park in 1972 and now covers 9,050 km²

Within these woodland savannahs are larger patches of grassland, so that grazers such as zebra and leaf browsers such as giraffe are found in profusion in the same areas. Patches of flooded grassland habitats (floodplains) are found close to the river, on which hippopotamus graze at night. Their dung released into the river fertilizes its waters and sustains the fish population which in turn sustains the crocodiles.

The Luangwa valley, continued to the west by the Lunsemfwa River valley, contains some varieties of animals such as Cookson's wildebeest and Crawshay's zebra which are endemic or near-endemic to the valley. It also represents something of a natural barrier to human migration and transport, no roads cross it and this has helped conserve its wildlife.

This journey, rich in contrast and adventure, is full of unforgettable experiences.

Day 1: Lilongwe

From Lilongwe we drive to the Zambian border at Chipata on our way to South Luangwa National Park.

The Luangwa valley is one of Africa's prime wildlife sanctuaries, with concentrations and varieties of game and birdlife that have made it world famous. This is the landscape of the 'real Africa', with herds of antelope roaming the plains, predators stalking through the shadows, and primordial flora in every vale.

Sunset over the Luangwa River

Vegetation ranges from dense woodland to open grassy plain, where oxbow lagoons act as natural water holes. The list of animals that frequent the park is endless. Mammals include zebra, buffalo and lion, as well as

endemic species such as Thornicroft's giraffe and Cookson's wildebeest.

Game drive in South Luangwa

The park successfully supports one of the largest concentrations of elephant in Africa and also has an expanding population of leopard. We arrive in time for a late lunch.

After we have settled in our lodge situated inside the park we go for our first afternoon game drive that rolls in to a night drive after we had our first sun downer. We return for dinner at the lodge. Walking in the bush at night is dangerous, and the lodge provide escorts to take you to your chalet after dinner.

Chalet, 1 night (L, D)

Day 2: South Luangwa NP

Today we start to explore this remote wilderness area that covers over 9,000 square kilometres after an early morning wakeup call and coffee/tea and rusks. The park encompasses a wide variety of habitats and the Luangwa River describes a torturous course along the valley floor. Near the river the vegetation is lush and dense, and along its many tributaries riverine forest remains emerald green all year round. Our morning ends about at 11h00 and is followed by lunch. We can relax next to the swimming pool and have tea at 15h30 before we start our afternoon/night game drive.

Hyena spotted on night drive

A night game drive gives us the chance to catch a glimpse of the nocturnal

world within the park illuminated by spotlight. Viewing game at night allows us to see species that would normally be hidden throughout the day, and may include porcupine, hippo grazing on land and Honey badger.

We return at 20h30 to the lodge for our dinner. After dinner we sit under the African sky and listen to the night sounds before turning in.

Chalet, 2 nights (2xB 2xL, 2xD)

Day 3: South Luangwa NP

We do a further morning drive after our early morning coffee/tea. For scenery and sheer variety of animals, South Luangwa is one of the best wildlife parks in Africa. Multitudes of species thrive in this sanctuary, and the size of the national park allows large herds to develop and live in harmony with each other.

South Luangwa National Park is one of the world's great wildernesses and provides a great insight into Africa's rich fauna and flora. We have the option to do a walking safari today.

Leopard Tortoise: walking safari.

It is one of the best-known national parks in Africa for walking safaris. Norman Carr pioneered the now famous "Zambia walking safari", which originated in South Luangwa and this still one of the finest ways to experience this pristine wilderness first-hand. The changing seasons add to South Luangwa's richness ranging from dry, bare bushveld in the southern hemisphere winter months to a lush green wonderland in the summer months. We offer Africa's authentic yesteryear safari and lodge for those wanting to see wildlife away from the crowds.

The afternoon rolls into our afternoon/night game drive. This is followed by dinner and our last night next to the crackling camp fire.

Sunset in Luangwa.

Sun downer at the Luangwa River

Day 4: Return to Lilongwe

After our wake-up call we go on our last morning drive return for a leisurely breakfast. We then depart back to Lilongwe. En-route we may have the opportunity to visit the Batik Factory where the local population trade their craft. We cross back into Malawi, travel through rich farm land and we then drop you off at your lodge/hotel.

Hippo - South Luangwa NP

RESPONSIBLE TRAVEL

Since January 2003, Barefoot Safaris has donated £10 for every person we take to Zambia, to assist with the funding and development of **Chanyoli School**. Parents and school staff have recently fired 60,000 bricks and will begin building this year. You may like to bring some books or school equipment to assist this very deserving project and see for yourself how well received it is.

We also support the **SOS Children's Village**, which you can visit in Lilongwe. They would be most grateful for any children's clothes or toys that you might donate.

Elephant South Luangwa NP

Thornicroft's Giraffe, South Luangwa NP

Zebra, South Luangwa NP

Price Includes:

- All transport on tour.
- All meals as per itinerary.
- All park entry fees.
- All game viewing activities as per itinerary.
- All accommodation fees as per itinerary.
- Safari equipment.
- Reference library.
- Deep freezer.

Price Excludes:

- Airfare.
- Visa fees.
- Airport taxes.
- Meals as per the itinerary.
- Drinks.
- Expenses of a personal nature.
- Any changes to the itinerary.
- Travel and medical insurance.
- Walking safari is optional

**** Excursions:** A qualified grade 1 safari guide from Barefoot Safaris will accompany clients on all excursions except where it is necessary to employ a guide from local parks.

ADDITIONAL INFORMATION

Climate: Eastern Zambia's climate is very similar to Malawi's. The cool and dry season runs from May to Aug; the hot and dry from Sep to Oct, and the wet season from Nov to Apr. South Luangwa is relatively low lying, so evening temperatures shouldn't be too low!

Baggage:

- One piece of main luggage only (max 12kg), this should be a soft bag rather than a hard suitcase, so it can be easily stowed and not take up too much room in the vehicle. Space in the vehicle is restricted.
- A day sack (large enough to carry your camera, water bottle, & binoculars etc) is also essential.
- Sleeping Bag

Clothing and Footwear:

- For comfort in the heat, lightweight cotton is best. Brightly colored clothing is not appropriate for safari because it is easily seen by animals and has the added discomfort of attracting insects (wear muted tones in natural colours i.e. beige, khaki, olive, etc, but **not** army-style camouflage clothing).
- A long-sleeved shirt is essential to protect neck and arms while on game walks/drives.
- Long trousers and socks for evenings.
- Windproof/waterproof jacket.
- Lightweight trail boots.
- Trainers or sandals for relaxing.
- Sunhat.
- Swimming gear.
- Warm mid layers i.e. fleece or jumper for cool nights and early mornings
- Kagoul if you are travelling during the rains.

Equipment:

- A laundry service may be available in some hotels, but we recommend you take biodegradable travel detergent
- Torch (Head torch is ideal)
- Water bottle
- Sunglasses, sunscreen and lip salve
- Insect repellent
- Binoculars
- Dust can be a problem for cameras; take a dustproof bag

Medicine:

- Basic personal first aid kit
- Any prescription drugs required
- Female sanitary products
- Malaria prophylaxis

Visas and Permits:

Malawi: Holders of UK, USA, CAN, AUS, NZ, IRL, NOR, NL passports do not require a visa.
Zambia: Holders of UK, USA, NZ, NOR, NL passports do require a visa. In view of the unreliability of local communications however, you must be prepared to pay for your visa at the Zambian border (check our website for latest details). It is unnecessary to acquire your Zambian visa in advance.

This information is given in good faith, but may be subject to change without warning. Please note that, where appropriate, obtaining a valid visa is ultimately your responsibility. Please consult a visa agency or the consular authorities 4-6 weeks before departure for the most up-to-date information.

Vaccinations & Health Advice:

Vaccination requirements & other health advice can change, so please check with a specialised travel clinic for up to date information before you depart. For useful advice you can visit The Medical Advisory Service for Travellers Abroad www.masta.org

Nevertheless we recommend that you protect yourselves against: *Malaria, Hepatitis A, and Polio & Typhoid as a minimum.*

NB: The Yellow Fever vaccination is compulsory if travelling via an infected country. As you enter Zambia at a land border, coming from Malawi where yellow fever is endemic, the Zambian authorities will require you to produce a certificate to prove you have been vaccinated against yellow fever.

Food: Although every effort will be made to accommodate any dietary requirements, the availability of certain products is limited in Malawi and Zambia. Any special dietary requirements should be explained to us in writing at time of booking. Gluten free flour should be brought with you if required. Decaffeinated coffee should be brought with you if required.

Local Costs: 3 Breakfasts, 3 lunches and 3 evening meals are included. You must pay for all

other meals yourself (you can eat very well for £10 a day). Approximate costs are given for guidance only, and may vary widely according to location and type of establishment.

Coffee/tea	USD 2.00
Soft drink	USD 2.00
Medium beer	USD 3.00

Optional excursions:

Some or all of the excursions detailed below may be available; others not listed may also be available. Approximate per person costs are given for guidance only, and may depend on the number of participants. Your safari guide should be able to assist you in arranging them.

Luangwa Walking safari USD 35.00

Tipping: For better or worse, tipping is an accepted part of everyday life, and - although it is available at your discretion - you will be expected to tip to reward service. Your group leader will give you an indication of when and how much is appropriate. This can vary widely, but please allow \$ 30 per person for this tour.

Seasonal changes: Although all rooms and tents that we use are protected with mosquito netting; there will be insects and mosquitoes about. The camps are essentially "al fresco" so you should be prepared with insect repellent and appropriate long sleeved/legged clothing.

Insects are attracted to lights at night and are especially prevalent during the rainy season. Switching the lights off and placing a hurricane lamp a distance from you will remove the problem.

The evenings and mornings will be chilly from about June to August; so it is advisable to take a light sweater or fleece. The Highlands in Malawi has a much cooler climate, so if you are visiting these areas warmer clothes will be required during these months.

Currency: Malawian & Zambian Kwacha. We recommend that you bring all you need for the trip as cash in US\$.

NB: Pre 1990 dollar bills are not accepted in most African countries. In reality there is little opportunity to change money other than at the airport on arrival, so it makes sense to change what you will need for the duration of the tour. NB: small note denominations are not acceptable in Zambia, i.e. 1,5,10 & 20. Beware of marked, torn or dirty notes, as they may not be accepted. Your group leader will be able to advise you when and where else it may be possible to change currency. Optional excursions can generally be paid in US dollars cash.

Airport Tax: This is now included in your air ticket.
